

Explanation of the main page

The background should be image upload, not coded

Friday prayer time, this is on display all week for the upcoming Friday prayer. This time should be adjustable in the clock settings.

Zawal time, this is 10 minutes before Dhuhr prayer And should have a 2 minutes count down

Sunrise is the time from excel spreadsheet, which includes the prayer times And should have a 2 minutes count down

Imsak is 10 mins before Fajr prayer. To be adjusted through the code.

Features

1. Every Salah should have a countdown in the beginning for 2 mins with end **Beep sound**
2. Jamaat time should present a 3 mins countdown and 1 min for the donation page (**Labeled image 1**) and 2 mins for the Jamaat countdown. with end **Beep sound**
3. The screen should go off and show a mobile phones off image (**Labeled image 2**) and the amount of time for the screen to turn off should be adjustable in the clock settings
4. After Jamaat time, it should update to show that prayer time for tomorrow. If the Jamaat time changes, there should be a notification message saying 'Tomorrow the time will be changed for example '7 O'clock (**Labeled image 3**)
5. On Thursdays after Dhuhr prayer time, the name should change to Jum'ah on the screen (**Labelled image 4**)

1. There should be no countdown to the 'Jamaat' time on Friday prayer (Jumu'ah). There is a Friday sermon followed by a prayer. Instead, the time for the screen to turn off should be adjustable in clock settings, usually it's something like 1PM to 1:45PM but it can differ from mosque and season. (Labelled image 5)
2. Saturday Dhuhr prayer time will begin to display on Thursday after Dhuhr if there is a new prayer time. It should skip Friday as there is no Dhuhr prayer on Friday.
3. ISHRAQ
4. 10 minute after sunrise and should have a 2 minutes count down
5. HADITH OF THE DAY
6. It should show every 10 mins except when countdown is on, and during prayer times when the mobile phones off screen is on display
7. Every day there should be a new hadith according to the Islamic calendar. There should be a different folder for each Islamic calendar month with different hadiths for each day.

1. RAMADAN
2. In Ramadan this screen shows a count days of Ramadan after the beginning time of maghrib.
(Labelled image 6)
3. Taraweh screen – should be time adjustable so that the screen turns off and when it should turn back on in the clock settings. This can be from 8PM to 9PM and differs between mosques. The screen should turn back on automatically after the time set. The image should have the masjid name at the top of the screen, then the prayer name in English then Arabic, then the time, which should be a live clock time like the image. The image is an example of what it should look like (Labelled image 7)
4. Zakat ul Fitr – There should be a one minute reminder on the 27th, 28th and 29th of Ramadan which is displayed four minutes before each prayer and straight after each prayer when the screen turns back on , NOTE if there is a notification for PRAYER TIME CHANGE, this should be priority and the reminder should display after. (Labelled image 8)

1. LIGHT DAYS

2. There should be a reminder of the light days every Islamic calendar month on the 11th and 12th of each month after every prayer when the screen turns back on EXCEPT during Ramadan NOTE if there is a notification for PRAYER TIME CHANGE, this should be priority and the reminder should display after (Labelled image 9) Similar to this image but I will change the text

3. ASHURA

4. There should be a reminder displayed on the 7th and 8th of Muharam (Islamic calendar month) after every prayer when the screen turns back on (Labelled image 9) Similar to this image but I will change the text

WITR

1. There should be a reminder after every ISHA prayer when the screen turns back on for 3 min

MESSAGES

1. Notification messages – you should be able to write a notification message which displays in the centre and should be adjustable (text size and color) with a dropdown list. There should be an option to enable and disable messages

EVENT POSTERS

1. There should be an option to upload 5 posters, The time for it to be delayed and displayed should be adjustable in the settings. There should be an option to enable and disable posters.

- Clock should be able to support 12 and 24 hour format, this should be adjustable through the code.
- When the time sheet is coming to an end, if it's not uploaded for next month – display a reminder to upload the next time sheet for the following prayer times.
- There should be two versions: a horizontal and a vertical layout
- There should be an option to display multiple Jumu'ah prayer times.
- These are all feature that are in the original programme that I can remember and 2 new feature that I would like you to add

Please note, there may be more features. I will notify you if so. Thank you!
